

# Let Shit Go

Chris Brown

'Bout to outlaw  
You think you got the upper hand right now  
Give you a taste of this life, yeah, my bad  
To give a fuck about the love we had  
Shut up bitch, it ain't mainstream  
You wanna play with fire  
Well I'm smokin' gasoline and I can't get no higher  
And we all know that you a liar  
Shut the fuck up, I don't wanna hear it  
Got a nigga tired  
But whoa, she

She wouldn't know what to say  
If she was in front of my face  
Nobody would know of the day  
If I wasn't makin' them payments  
Now you got all this to say  
Need to keep it real with yourself  
What are you doing? Why did you do this?  
Girl, fuck you bitch, you think you slick, I'ma do my own thing  
I ain't 'bout to pay you no mind  
I done did this shit over and over  
And I think it's 'bout time I

Let this shit go  
Let this shit go  
I gotta let this bitch go  
I gotta let this shit go  
Let it go

How you gon' be wifey when you don't really like me  
I ain't fuckin' with no fighting  
She be fucking with the swiper  
But a nigga kinda like it  
Hella [?]  
But I can't blame you for it 'cause I did the same shit  
And you do the lame shit just like me  
Here we go, lay on the fly baby  
And let me know if you want some raw baby  
Do it the most, it's the same old story  
Everybody knows your game baby

She wouldn't know what to say  
If she was in front of my face  
Nobody would know of the day  
If I wasn't makin' them payments  
Now you got all this to say  
Need to keep it real with yourself  
What are you doing? Why did you do this?  
Girl, fuck you bitch, you think you slick, I'ma do my own thing  
I ain't 'bout to pay you no mind  
I done did this shit over and over  
And I think it's 'bout time I

Let this shit go  
Let this shit go  
I gotta let this bitch go

I gotta let this shit go  
Let it go
