Let it rain, let it rain, let it rain
Cause its getting hot girl,
Give me all you got girl
Don't have to rush, ain't going nowhere
I'll take off your thong, put you're legs in the air
Girl I'm gonna pick you up, pick you up
Rock you like a baby
Loving you so crazy
I'm gone' make you have a flash back
To your first time
But this time you know just what you like so. . .

Dont be acting shy up in this room
Like I make you nervous (ohh)
Ima take my time and do your body right
If you let me (uh huh)
Ima make you feel like a virgin again, again
Ima make you feel like a virgin again, again
Ima make you feel like a virgin again, again
Ima make you feel like a virgin,
Promise ima make it all worth it
Ima make you feel like a virgin again

Let me kiss you to start it off
Damn your lips so soft
Make a nigga wanna bite them off
This what you wa-wanted huh?
Ima be ure porn star
Baby take ure clothes off
Let me taste between ure legs,
Dang you got me so hard
If I get it ima hit it right (right)
I know you tired, its the middle of the night
Wanna give you that good love
Fall in love with me shorty you just might (might)

Legs up to the sky

So baby dont be. . .
