

Love Rocket

Chris Brown

I'm fly in the sky,
Outer space our satelllites
Wanna take a, a little ride
On your rocket yeah yeah your rocket

Heading for the milky way a big surprise,
Looking for the sugar rush I,
Are you the guy?
Delighted, if was invited.
So tell me how bout it yeah

Definition of a freak yeah,
Lets do something crazy yeah,
I want you and you want meeee
And i don't need

Your chain your bling
It don't mean shit to me
Just keep your money in your pocket
Everything up in here out
No fake I.D
Just keep it real with me
You know you want me
Boy just stop it
Let me hop on your love rocket
noooooooooow
Let me hop on your love rocket
noooooooooow
Let me hop on your love rocket

How do, I say to you
That you are my one and only
Never leave me lonely
Put your body on me
And hold me close yeah
Lets take off to a place we never been
And make love all night till the morning

Me girls tell me get him now
Me have to catch him now
Me say me want to see you comfortable anything to make you smile

And make you smile
And make you smile
I said me want to see you comfortable and make you smile
And make you smile
And make you smile
But I don't need to much

Your chain your bling
It don't mean shit to me
Just keep your money in your pocket
Everything up in here I own it
No fake I.D
Just keep it real with me
You know you want me
Boy just stop it

Let me hop on your love rocket
