Chris Brown

We got ties
Yo that's my shooter she stay qualified
We always see it eye to eye
I just want to make you my slime (yea)
I'm in love
You got me doing things I've never done
Whatever it takes to make you mine
I just want to make you my slime

How you do that, babe?
Got me feeling ways
Been into you but you already knew that babe
I might just get your name tatted
The way you get money is attractive, uh huh
Gushing, gotta nigga feening for it
Swear you, give me everything and more
Ain't nothing about you average
Classy in public, in private you so Rachet

Never want to leave
I'll never cheat
Baby we can take it slow
Let's stay off the street and in the sheets
You know how this thang go

We always see it eye to eye
I just want to make you my slime (yea)

Whatever it takes to make you mine
I just want to make you my slime

Take you out and get you what you want
