

No Interruptions

Chris Brown

You're my favorite don't nobody come close
A lot of these women they ain't solid like you
Body's be banging they ain't badder than yours
Badder than yours that's why I always need more
When I say I need you baby it's more than your figure
I'm trying to love you all year from summer to winter
Put some bands in your pocket baby do you get the picture
I need your undivided
Let me show you my vision

I take you anywhere but your finger on the map
Gassing up the jet one way
But for now I'mma love you right where we're at
We gon' do this our way
Fuck what anybody gotta say about us babe
They ain't been where we been they not on our wave
I just wanna keep you close while I'm switching lanes
Put my hundreds in the air for you I'll will never change

I I I
You know baby I got all this love I'mma fill you up
Oh I got all this time I'm ain't in rush
Put that body on me never get enough
I I I
(Yeah) I get you wetter than sea when we touchin
Put your phone on DND no interruptions
Bout turn this little fling into somethin

You got me laying it out
Baby ain't no in and out yea
I know you got a plan for now
But either way I gotta lock it down
Thinking about it baby I can't shake the feeling
I know that you feel it and baby I'm with it
I got 'em fall falling all over me but you my intentions (yeah yeah)
Baby I just want wanna

I take you anywhere but your finger on the map
Gassing up the jet one way
But for now I'mma love you right where we're at
We gon' do this our way
Fuck what anybody gotta say about us babe
They ain't been where we been they not on our wave
I just wanna keep you close while I'm switching lanes
Put my hundreds in the air for you I'll will never change
