

## Now & Later

Chris Brown

It's like I'm at a candy buffet  
Gum drops, blow pops, strawberries, and grapes  
I know  
You got the flavor  
You all in the mix like a cup of Kool Aid  
When I try to kiss ya  
Put the sugar on my lips  
I catch a fit, I'm not used to this  
Can anybody tell me why?  
Shortie got me feelin' high

You're my now and later  
Since you're so good to me  
Like a cherry flavor life saver  
Please don't ever leave  
Now and later girl  
My candy girl  
I can see gettin' close to you  
Baby I want you all to myself

They don't understand  
I consider as my first real love  
I know you're authentic first sure enough  
From the rob into love  
Baby you changed me  
I feel good about you  
Before the sugar rush I'd never doubt ya  
I need you dealin' wit me not without me  
So baby get in close to me

You don't have to worry  
Baby we got forever  
To keep it grown  
Baby it's a good thing  
You're right here  
And I am always cool with that  
Candy coated love

Put your hands up if you in the spot  
Let me see your now and later drop  
Put your hands down playin' around  
Now let me see your now and later drop  
Put your hands up if you in the spot  
Let me see your now and later drop  
Put your hands down if you wanna play around  
I know you wanna see your now and later drop
