

Rain Down

Chris Brown

OG Parker

So just lay it down for me
Stay down for me
Lay down on me drowning in your water
Let it rain down on me
Stay down for me
Lay it down for me
Drowning in your water
Let it

Who you know goin' to take it like me
Trap nigga fuck em to that Al Green
Pussy water he go under submarine
Make em buss he gon' empty a magazine
Freak a Leek Brand new birkin pussy pink
Ride the wood like a roller rink
But I love it when a nigga take control of me
Love you good, fuck you right
Type a bitch he wanna wife
Piss you off then take the pipe
It's better when we fuss and fight
Rap like I know what to do
Keep it wet this pussy cool
Love when I'm on top of you
I ride like I got something to prove
I make it rain like quez, strap, and Ali
The better the back of the seats
The head in traffic for me, I got him weak in the knees SWV
If you know what I mean
He come out them chrome heart jeans
Put it in my spleen
Now tell him to rain on me

So just lay it down for me
Stay down for me
Lay down on me drowning in your water
Let it rain down on me
Stay down for me
Lay it down for me
Drowning in your water
Let it

Oh yeah
Come let it rain on me
I'll put you straight to sleep
Shawty don't play with me
'Cuz I'm in love with your body
Come and ride me like a Masi'
Top down I'm on Collins
She look like she work at Follies
All up in my face
Buss it like AK
Grabbin on your waist
Love the way you taste
Damn, you so wavy
All these other hoes fugazi

Pussy might might drive me crazy
Fuck around get you pregnant
By now, I know
I could book your flight now
Rollie with the ice now
Know you want these lights out
Just know you can get it
Every time I'm in it
Just bring your body over here and

So just lay it down for me
Stay down for me
Lay down on me drowning in your water
Let it rain down on me
Stay down for me
Lay it down for me
Drowning in your water
Let it

Be careful, don't drown
If you diving deep, you'll be soakin'
When you open the box
Just leave it buss down like a Rollie
Put you in the mirror
Pullin my ass down to your head
You good but say you could get better
Wet but it still could get wetter
We just getting started
Boy go long, don't finish
Now baby stay focused
I need all of your attention
Is it hot in here?
Or is it me?
I feel the temperature is rising
I'm still on one
This X rated for your eyes only
Your loves an anchor the way you come droppin it down in my sea
Bae take a second won't you come on supreme, yeah yeah
