Red Lights

Chris Brown

I know exactly what you like and baby I'm about to take it down
You say you want me, is that right? I think it's best we get up out here now
Because I saw you in that dress, they can't handle this, speeding while I'm tryna steal
You kissing on my neck, I'm feeling on your leg and girl won't let stop it now

Girl, I ain't gotta waste a night with you babe
We doing 95 in a 35, baby you know what to do

We gon' run some red lights
And you know there ain't no stopping even when we get home
Girl we gon' run some red lights
Push the pedal to the metal screaming "Fuck the Five-O"
And girl you know it's key push to start, sex in a car for hours
Your body parks under your hood, it's power babe
And I ain't even tryna gas you up
And we gon' run some red lights

Yeah backseat goes right and whip, hold on it's gon' take long, enjoy this trip
Girl you got the new car, the new car smell and we gon' give this new car a new car smell
Yeah revving my engine you turning me on, yeah shifting your gears I love how you moan, love how you moan, love how you moan
It was so good that I had to go back for a second so I could just relive the moment

I ain't gotta waste a night with you babe
We doing 95 in a 35, baby you know what to do, baby we gon'

We gon' run some red lights
And you know there ain't no stopping even when we get home
Girl we gon' run some red lights
Push the pedal to the metal screaming "Fuck the Five-O"
And girl you know it's key push to start, sex in a car for hours
Your body parks under your hood, it's power babe
And I ain't even tryna gas you up
And we gon' run some red lights

Red lights, all night baby, yeah
And we gon' take a midnight sex drive, don't you heard what I said, fuck every red lights
Red lights, all night, baby, fuck every red lights
Midnight sex drive, don't think you heard what I said, fuck every red lights

We gon' run some red lights
And you know there ain't no stopping even when we get home
Girl we gon' run some red lights
Push the pedal to the metal screaming "Fuck the Five-O"
And girl you know it's key push to start, sex in a car for hours
Your body parks under your hood, it's power babe
And I ain't even tryna gas you up
And we gon' run some red lights

Red lights, all night baby
And we gon' take a midnight sex drive

Don't you heard what I said, fuck every red lights
Red lights, all night baby, midnight sex drive
