

# Residuals

Chris Brown

Don't know when my nights became so complicated  
Can't recall my mornings  
Ever being this faded  
Maybe this is karma  
Definition of jaded  
Uh  
This stays on my mind  
This stays on my mind  
Tryin to put a muzzle on my crazy feelings  
One minute I'm cool  
And then the next I'm trippin  
No  
With somebody new  
I swear she don't deserve this  
Wasted all my time  
She's still on my mind  
Do we build it up?  
Build it up?  
Just to let it wash away  
Tell me did I lace you up  
Lace you up  
Just to watch you run away  
Please

Tell me who, who's getting all my love?  
Love  
Who's getting all my love  
Tell me who, who's getting all my time  
All of that used to be mine  
Oh  
Who did you teach what I taught you  
Ooh oh ooh oh  
Better not give him my nickname  
I don't like thinking about it  
I swear that it's wearing me down  
No  
But tell me, who  
Who's getting all of my  
Who's getting all of my  
Residuals  
Who  
Who's getting all of my  
Who's getting all of my  
Residuals  
Who  
Who's getting all of my  
Who's getting all of my  
Residuals

Made it clear you didn't wanna see the sequel  
I was lying when I said the feeling's mutual  
No  
It took some time to realize that we are different people  
And love is blind  
I see love is blind

Did we build it up

Build it up  
Just to let it wash away  
Tell me did I lace you up, lace you up  
Just to watch you run away  
Please tell me

Who  
Who's getting all my love  
Who's getting all my love  
And tell me who  
Who's getting all my time (My time nah)  
All of that used to be mine (Believe it)  
Who did you teach what I taught you  
Better not give him my nickname  
I don't like thinking about it  
I swear that it's wearing me down  
No

So tell me  
Who  
Who's getting all of my  
Who's getting all of my  
Residuals  
Who  
Who
