

Right Now

Chris Brown

I'm running you a bath, I'mma have you wet before I get you in
the water
And we ain't moving fast, ain't gon' make it to the bed, you go
n' come before we start up
I'm waiting down here cause I know you feel it
Hell yeah it's going down tonight

Baby don't you worry I'm about to go and take it down
Kissing on your body, I'mma fuck around and turn you out
Diamond minx on the floor, making love, cherry lights
Can't think of nothin' more, making love to you tonight
I'll give it to you now, now
Right now
I'll give it to you now, now
Right now

Shawty know she bad, lickin' on them lips got me feeling kinda
crazy
Arch your back and while I'm grabbin' on your hips I know later
you gon' thank me
But it's okay, it's alright, we gon' get it all night
Don't be scared, girl I don't bite

Baby don't you worry I'm about to go and take it down
Kissing on your body, I'mma fuck around and turn you out
Diamond minx on the floor, making love, cherry lights
Can't think of nothin' more, making love to you tonight
I'll give it to you now, now
Right now
I'll give it to you now, now
Right now
Diamond minx on the floor, making love, cherry lights
Can't think of nothin' more, making love to you tonight
I'll give it to you now, now, right now
I'll give it to you now, now, right now
Diamond minx on the floor, making love, cherry lights
Can't think of nothin' more, making love to you tonight
I'll give it to you now, now, right now
I'll give it to you now, now, right now
