Feels like, girl, it's time for us to be close
You got what I want, tryna rock the boat
If I take a drop, who gon' pick you up?
Then you comin' by and we makin' love
So get dressed, pack a bag 'cause I'm on my way
Girl, you sexy in my favorite lingerie
You know I feel a vibe and you tryna fuck
So come through for the night, baby girl, it's up

Can you come through? (Ooh)
I can pour you wine, ease your mind, get you right
Lay you down how you like me to (Ooh, ooh)
I'll let you decide, girl, we got all night
Baby girl, just let me know the mood (Yeah)
Can turn you on by the way you textin'
Girl, I'll pull up when you send a message
Call up a Lyft and send 'em my directions

I wanna know if you gon' slide (Slide, come over)
Promise you ain't gon' regret your decision
Baby, slide (Slide)
Baby, I'm tryna be the one to grant all your wishes
Baby, slide (Come over)
It ain't too late for you to hit my line now
I just need for you to make your mind up
Just slide
