

That Somebody (It Was Me)

Chris Brown

Tell me do you remember when (hmmmmmm)
You were talking to your best friend
And she mention
There was someone a gentleman (hmmmmmm)
Who was trying his best to extended
An invitation

If you get to know me baby it will be
A really good thing
Baby no strings
I know it seems like
I'm coming on strong
I hope you don't mind spending time
Just you and me (Just you and me)
I know you will have a good time

That somebody was me
I'm the one that called you up with the blocked ID
For a week see I was holding back my feelings
Wasn't sure how you would respond to me
It was me girl

Girl I bet you remember when (hmmmmmm)
You went out with your girls clubbing
And dancing yeah
You glanced at a gentleman (hmmmmmm)
I got your number from your girlfriends
They said you would want

If you get to know me baby
It will be a really good thing
Baby no strings
I know it seems like
I'm coming on strong
I hope you don't mind spending time
Just you and me (Just you and me)
I know you will have a good time

That somebody was me
I'm the one that called you up with the blocked ID
For a week see I was holding back my feelings
Wasn't sure how you would respond to me
It was me girl

That somebody was me
I'm the one that called you up with the blocked ID
For a week see I was holding back my feelings
Wasn't sure how you would respond to me
It was me girl

Ohhhhhhhhhhh
Not ashamed to say it was me baby
Not ashamed to say it was me
I'm not ashamed
They said

That somebody was me

I'm the one that called you up with the blocked ID
For a week see I was holding back my feelings
Wasn't sure how you would respond to me
It was me girl
