

# Your World

Chris Brown

Your world  
I wanna live in it  
Your world  
I wanna live in it  
Your world  
I wanna live in it  
Your world  
Your world

(I been)  
Chilling on the beach  
Down in Mexico  
Staring at the lights up in Tokyo  
Dancing in Spain as the rain falls down  
(I been)  
In New York City  
Where they never sleep  
First class flights on the way to Greece  
I been everywhere  
And back around  
See I been to London  
And I been through France  
And all that means nothin  
If you don't give me a chance

Cause it's your world  
Yea it your world  
That I've never been  
Until you let me in  
Cause in my world  
Yeah in my world  
I can never win  
Until you let me into your world

I can't stop thinking bout you every night  
Picturing your body laying next to mine  
What's it gonna take for you to open up  
Cause I wanna know everything about your world  
I wanna be there when you need me girl  
I wanna be more than a fool in love

See I been to London  
And I been through France  
And all that means nothin  
If you don't give me a chance

Cause it's your world  
Yea it your world  
That I've never been  
Until you let me in  
Cause in my world  
Yeah in my world  
I can never win  
Until you let me into your world

Baby let me dive into your ocean  
Let ee wish on your shooting star

We gotta put this thing in motion  
Bring our two worlds to the same heart

Your world  
I wanna live in it  
Your world  
I wanna live in it  
Your world  
I wanna live in it  
Your world  
Come on girl

Cause it's your world  
Yea it your world  
That I've never been  
Until you let me in  
Cause in my world  
Yeah in my world  
I can never win  
Until you let me into your world  
Cause it's your world  
Yea it your world  
That I've never been  
Until you let me in  
Cause in my world  
Yeah in my world  
I can never win  
Until you let me into your world

Your world  
I wanna live in it  
(I wanna live in it)  
Your world  
I wanna live in it  
(Just need to live in it)  
Your world  
I wanna live in it  
(I wanna live in it)  
Your world  
(Your world)  
Your world  
Your world  
I wanna live in it  
Your world  
I wanna live in it  
Your world  
I wanna live in it  
Your world  
Your world  
Your world (your world)
