"I"

Chris Caffery

Turning the page I can see fearfully in your mind
Your weapon of choice is deception
It's working just fine

Well, it's easy to say we will fight to the end
When you sit in your hole afraid to defend
Every life is at stake, fucking including yours
On the wall is your face, watch it fall to the floor

Oh, it's your destination
Oh, prime time sensation

I don't care about your religious nation
I refuse to give my life for free
I was born, I am my father's creation
But when I die I'm going to die, going to die
Die for ME!!!

Prowl in your home through the waves of a digital time
In a blink you appear, moving in for the kill
What a crime

An inconspicuous was part of the web that you weave
I'm impressed with the fact that you made 'em believe
You're looking out for our backs as we head to the front
It's not so easy mother fucker when your under the gun

Oh, it's your destination
Oh, prime time sensation

I don't care about your prestigious nation
I refuse to give my life for free
I was born, I am my father's creation
But when I die I'm going to die, going to die
Die for ME!!!

(Spoken words)
Solo

Oh, the famed won't save us
Oh, release the shameless

I don't care about the fate of all nations
I refuse to give my life for free
I was born, I am my father's creation
But when I die I'm going to die, going to die
Die
Going to die, going to die
Die
Going to die, going to die
Die for ME!!!

Die for me!!!!!
