

# No Matter What

Chris Caffery

Ooh yesterday's gone  
Ooh time to move on

(Save, save, save)  
Save me  
The men where I stand  
(I must feel you)  
Help me in time to see  
Why give to you  
When you can give to me

Afraid of change, rearrange  
Unknown  
Must escape reality  
Unknown

No matter what  
No matter when  
Do not regret  
Your life my friend  
When time is up  
You can't pretend  
No matter what  
Your life will end

(Feel, feel, feel)  
Feel me  
My presence is known  
(I must feel you)  
Help me  
I can not return  
Lost in life  
I will die alone

Afraid of change, rearrange  
Unknown  
Must escape reality  
Unknown

No matter what  
No matter when  
Do not regret  
Your life my friend  
When time is up  
You can't pretend  
No matter what  
Your life will end

Afraid of change, rearrange  
Unknown  
Must escape reality  
Unknown

No matter what  
No matter when  
Do not regret  
Your life my friend

When time is up  
You can't pretend  
No matter what  
Your life will end

No matter what  
No matter when  
Do not regret  
Your life my friend  
When time is up  
You can't pretend  
No matter what  
Your life will end
