

# Piece Be With You

Chris Caffery

I felt fear in the eyes of the stanger  
I sense hate in the dark and the cold  
NOW, I hear steel in the rain -  
HOW can I ever explain  
Stand and watch the sparks fly, hear the sound I may die for peace  
Is there piece with you, there is piece with me NOW!

I have entered this world without hatred  
Taught to love both the young and the old  
NOW, I fight death in my brain  
HOW, can I ever explain?  
Lie and feel the tears fly, through my mind I send the terror

Chorus  
Piece be with you  
It means a lot when your six feet under  
Piece be with you  
Watch your back 'cuz revenge is coming NOW!

I view life from edge of the gates  
Watch my family cry in the rain  
NOW, I am forced to abandon my name  
HOW, can I ever explain?  
I lived my life for justice, now I'm gone all I have to say is

Chorus  
Piece be with you  
It means a lot when your six feet under  
Piece be with you  
Watch your back 'cuz revenge is coming NOW!

Bridge  
Avenge me, avenge me  
Avenge me, avenge me... NOW!  
From the grave my wrath is about to rise  
You pull the trigger, now you must die

Solo

I came back for justice, now your pulse is about to end and...

Chorus  
Piece be with you  
It means a lot when your six feet under  
Piece be with you  
Watch your back 'cuz revenge is coming NOW!

Avenge me, I will return  
Avenge me, I will return  
Avenge me, I have returned  
Avenge me... NOW!

From the grave my wrath has fallen  
I pull the trigger now you must die  
How does it feel when the tables turn?  
Except in yours, the end it burns!
