Chris Caffery

The level reaches red times three
Confusion all around
You've finally got the best of me
I'm the best around
The pressure trips insanity
The danger it will mount
It only brings the best in me 'cuz you see

I love your aggravation
It starts another wave of eternal bullshit

You've gotta be fucking kidding me
You've gotta be fucking kidding me
Gotta be fucking kidding me

Deceit it lives, the Devil breathes
The Reaper's hunt is now
Still coming is the best from me and you'll see

I love you aggravation
It fuels determination
Now comes another wave of eternal bullshit

You've gotta be fucking kidding me
You've gotta be fucking kidding me
Gotta be fucking kidding me

Ooh... the game is over
No more Sundays slave to sister sow
Engage the rover
Blackened hearts beat change
Has beckoned my might!!!

You've gotta be fucking kidding me
You've gotta be fucking kidding me
I'm the boss, not you
You gotta be fucking kidding me
