Always Be

Chris Crocker

It started in the summer of 2010
That's when I fell in love with him
No matter how hard I tried to resist
On October 23rd I was his

We were young but our love never grew old
We grew up but our love never grew old
No matter where life takes us you'll always be
My love, my boy from Chilhowie
No matter where life takes us
You'll always be
Ridin' in the car with your hands on my knee
In my memory
We'll always be

He loves freedom I love commitment
We always break up but we never end
I guess that's why we love our opposites
They show us what we're missing

We were young but our love never grew old
We grew up but our love never grew old
No matter where life takes us you'll always be
My love, my boy from Chilhowie
No matter where life takes us
You'll always be
Ridin' in the car with your hands on my knee
In my memory
We'll always be

I know we may not always be together
But even if you find someone else
That you love
If you ever need a friend, I'll be there
'Cause I will always be
Always be

We were young but our love never grew old
We grew up but our love never grew old
No matter where life takes us you'll always be
My love, my boy from Chilhowie
No matter where life takes us
You'll always be
Ridin' in the car with your hands on my knee
In my memory
We'll always be
