

Did You Ever Love Me

Chris Crocker

We're playing a mind game with our hearts
Trying to act so strong when we're lost
Feeling the same but acting so cold
I wanna call out your name
But you won't respond

I'm feeling pathetic
I'm feeling dramatic
But you want detachment

Did you ever love me
And if you did
How was it so easy
For you to sleep
In the same bed where we did
Did you ever love me
And if you did
How was it so easy
For you to forget
For you to forget
Did you ever love me

I'm replaying all the days in your arms
For the first time I felt I belonged
Lying in the grass, watching stars
We were so close and now we're so far

I'm feeling pathetic
I'm feeling dramatic
But you want detachment

Did you ever love me
And if you did
How was it so easy
For you to sleep
In the same bed where we did
Did you ever love me
And if you did
How was it so easy
For you to forget
For you to forget
Did you ever love me

I lie awake and think
And then I break
I lie awake
And lie to myself

Did you ever love me
And if you did
How was it so easy
For you to sleep
In the same bed where we did
Did you ever love me
And if you did
How was it so easy
For you to forget

For you to forget
Did you ever love me
