

Riding on a Rainbow

Chris de Burgh

We're riding on a rainbow
We're flying free
We're riding on a rainbow
Yes, you and me

There is a place I love in africa,
That they call the rainbow land.
It is a place to grow and live as one,
In a brotherhood of man

There is light that comes from africa,
And it's shining round the world.
Let all the colours speak of pride and joy,
In a voice that must be heard

We're riding on a rainbow,
We're flying free,
We're riding on a rainbow,
Yes, you and me.

There is a heart I hear in africa,
And it's beating like a drum.
Let everyone get up and to the stars,
We will go marching on.

I had a dream I was in africa,
I was soaring like a bird,
And then a million voices all around,
Was singing to the world...

That we are riding on a rainbow,
We're flying free,
We're riding on a rainbow,
Yes, you and me.

We are together on a rainbow
We're flying free,
We are forever on a rainbow,
Yes, you and me.

We are riding on rainbow
We're flying free
We're riding on a rainbow
Yes, you and me
