

Dangerous Game

Chris Grey

We're probably on a path to self destruction any day
But I know you love the rush, you need it running through your veins
Addicted to the pressure, we don't ever play it safe
(Ever play it safe)

Find myself
In this world made for two
Where only one gets the crown
Took a step (step)
Into something new (new)
I won't ever turn around

'Til I'm lost in your maze
I'm onto you
In love with the chase
Yeah, we're playing the most dangerous game
And I'm all in, all in
Yeah, it calls our name
We love being each others prey
Yeah, we're playing the most dangerous game
And I'm all in, all in

Poison in your touch, you're both the drug and antidote
We've been dancing with the devil trying not to lose control
Fire in your eyes yeah I can feel you getting close
Find myself
In this world made for two
Where only one gets the crown
Took a step (step)
Into something new (new)
I won't ever turn around

'Til I'm lost in your maze
I'm onto you
In love with the chase
Yeah, we're playing the most dangerous game
And I'm all in, all in
Yeah, it calls our name
We love being each others prey
Yeah, we're playing the most dangerous game
And I'm all in, all in

Maybe we'll beat the odds
But we don't know the cost
No, I won't ever stop

'Til I'm lost in your maze (maze)
I'm onto you
In love with the chase (chase)
Yeah, we're playing the most dangerous game
And I'm all in, all in (I'm all in)
Yeah, it calls our name (name)
We love being each others prey (prey)
Yeah, we're playing the most dangerous game
And I'm all in, all in (I'm all in)
