

In The Dark

Chris Grey

You're still in my head, I can't get you out
Feeling her instead but it's not the same now
She know I'm filled with regret but she don't know what about
It would bring us to an end, if she found out

So Imma keep her in the dark
We ain't goin' far
'Cause right from the start
We were meant to fall apart

I ain't in love with her
But Imma keep on touching her heart
And she's gon' keep on mending my scars
Yeah Imma give my love from afar, from afar

You're still in my head, I can't get you out
Feeling her instead but it's not the same now
She know I'm filled with regret but she don't know what about
It would bring us to an end, if she found out

So Imma keep her in the dark
We ain't goin' far
'Cause right from the start
We were meant to fall apart

I can see in her eyes she's in pain
Every time that I call her your name
She fell in love and I can't say the same

'Cause you're still in my head, I can't get you out
Feeling her instead but it's not the same now
She know I'm filled with regret but she don't know what about
It would bring us to an end, if she found out

You're still in my head, I can't get you out
Feeling her instead but it's not the same now
She know I'm filled with regret but she don't know what about
It would bring us to an end, if she found out

So Imma keep her in the dark (Yeah)
We ain't goin' far (No)
'Cause right from the start
We were meant to fall apart

(If she found out)
(If she found out)
(If she found out)
