

## LIFETIME

Chris Grey

Reckless, you don't know what you've done to me  
Every second we're apart I'm in misery  
Baby I run when you call  
I'd give it all away  
If you wanted  
Won't break a promise  
Jump if you fall  
I couldn't stop myself

Oh baby I could love you 'til the day I die  
Until the ocean starts to run dry  
Use my last breath just to call you mine  
I could love you for a whole lifetime  
My hand in your hand 'til the day we die  
Until the stars fall out of the sky  
Holding you close 'til my heart flatlines  
I could love you for a whole lifetime

I know no one else is enough for me  
Baby, I know we'll be burning eternally  
'Cause it's all falling down  
And times running out  
We'll climb all the mountains  
I'd spend a thousand  
Nights in the cold  
We'll be here holding on

Oh baby I could love you 'til the day I die  
Until the ocean starts to run dry  
Use my last breath just to call you mine  
I could love you for a whole lifetime  
My hand in your hand 'til the day we die  
Until the stars fall out of the sky  
Holding you close 'til my heart flatlines  
I could love you for a whole lifetime

A whole lifetime, yeah  
A whole lifetime
