

NEED IT

Chris Grey

I could let you ruin my life
You could give me hell or paradise
I know that you'll never be mine
Every inch of you tattooed on my mind

I want you breaking a sweat
Body turning red
Losing all your breath
I want you making a mess
baby when you beg
say it with your chest

That you need it
Like it keeps you breathing
Like it's your only way to get oxygen
Like there's no one to go back to
Like nobody's had you
Like nobody's hands have ever touched your skin

Love me like you need it
Love me like you
Touch me like you
Love me like you need it
Love me like you
Baby love me like you

I could be your saving grace
Cross your heart oh baby say my name and pray
I can take the pain away
Baby you look just like my worst mistake

Oh I want you breaking a sweat
Body turning red
Losing all your breath
I want you making a mess
Baby when you beg
Say it with your chest

That you need it
Like it keeps you breathing
Like it's your only way to get oxygen
Like there's no one to go back to
Like nobody's had you
Like nobody's hands have ever touched your skin

Love me like you need it
Love me like you
Love me like you
Fuck me like you need it
Love me like you
Baby love me like you
