

# Don't Speak

Chris Holsten

Wake up like it was all a dream  
Don't speak cause baby you might ruin it  
Last night was like a battlefield  
But right here it's almost like it used to be

Before the lies and compromises we were the bomb  
Crazy highs and paradise were keeping us young  
We could linger in the memory  
But don't speak because I don't want to ruin how it's

Alright, alright  
We don't need to talk  
It's alright, alright

Hands tied but we don't find our backs against a wall  
So don't speak, body talking for a while  
One touch and we go back in time  
Help me balance on the borderline

Before the lies and compromises we were the bomb  
Crazy highs and paradise were keeping us young  
We could linger in the memory  
But don't speak because I don't want to ruin how it's

Alright, alright  
We don't need to talk  
It's alright, alright  
So please don't speak  
Please don't speak  
If I don't keep it alright, alright

Before the lies and compromises we were the bomb  
Crazy highs and paradise were keeping us young  
We could linger in the memory  
But don't speak

Alright, alright  
We don't need to talk  
It's alright, alright  
So please don't speak  
Please don't speak  
If I don't keep it alright, alright

Wake up like it was all a dream  
But don't speak 'cause baby, you might ruin it  
Last night was like a battlefield  
Don't speak...
