

# Strip

Chris Holsten

Girl take your mask off  
Show me those empty scars  
So I get closer to you  
Skip all the acting  
Show me just who you are  
Wanna get closer to you

'Cause I can feel you heating up  
When you're laying next to me  
It's obvious you're on to me  
Strip it down, and open up  
Hey girl It's just you and me  
You know that I won't be like him

Strip all your clothes, girl  
Show me just who you are  
Wanna get closer to you  
Strip to your feelings  
Show me just who you are  
Wanna get closer to you

Take off your make-up  
Wanna see who you are  
So I can get older with you  
You're stuck in the past, girl  
Know that I'll heal your scars  
Wanna get older with you

'Cause I can feel you heating up  
When you're laying next to me  
It's obvious you're on to me  
Strip it down, and open up  
Hey girl It's just you and me  
You know that I won't be like him

Strip all your clothes, girl  
Show me just who you are  
Wanna get closer to you  
Strip to your feelings  
Show me just who you are  
Wanna get closer to you

Take off your make-up  
Show me just who you are  
So I can get older with you

Strip all your clothes, girl  
Show me just who you are  
Wanna get closer to you  
Strip to your feelings  
Show me just who you are  
Wanna get closer to you
