Truth

Chris Jamison

Driving 'round the block just to get some space from you
The fight that we just had got me prayin' that we'll make it th
rough
How'd I let it get so bad, inside I'm feeling black and blue
This ain't what I had in my mind when we took those vows and sa
id I do

I love you
Make sure when you say those words
You know it's true
I love you
Make sure when you say those words
That it's the truth

Open up the door, see your tears fall to the ground
I know that we've been here before
Let's just skip the part where we scream and shout
How'd we let it get so bad, our picture perfect family
You're crying and I just can't walk out every time we start to
disagree

I love you
Make sure when you say those words
You know it's true
I love you
Make sure when you say those words
That it's the truth

Won't find the answer, go in separate ways
Let's face our problems, compromise and change

I love you
Make sure when you say those words
You know it's true
I love you
Make sure when you say those words
That it's the truth
