

# Fix A Drink

Chris Janson

Well it's hotter than hell outside right now  
It's 100 in the shade with the sun beating down  
Forecast calling for some more of the same  
Well I can't fix that but I can fix a drink

I turn on Fox news and then CNN  
But it's the same dang thing all over again  
The world's in the toilet and the market's in the tank  
Well I can't fix that, no

But I can fix a drink, pour it on ice  
Mix it on up and get'cha feeling right  
I can get'cha buzzed, I can get'cha smiling  
I can make you feel like you're sitting on an island  
I can make it fruity or I can make it strong  
All you gotta do is tell me what you want  
Put it to your lips, take a little sip  
Tell me what you think, yeah  
I can fix a drink

Say you gotta broken phone and a broken heart  
The boss is on your back and your truck won't start  
None of your friends want to listen to Hank  
Well I can't fix that, no

But I can fix a drink, pour it on ice  
Mix it on up and get'cha feeling right  
I can get'cha buzzed, I can get'cha smiling  
I can make you feel like you're sitting on an island  
I can make it fruity or I can make it strong  
All you gotta do is tell me what you want  
Put it to your lips, take a little sip  
Tell me what you think, yeah  
I can fix a drink

I don't know what's going on with you  
But if you got some cheap whisky and some Mountain Dew  
Malibu, Cuervo, Coke in a cup  
Brother I can hook you up

But I can fix a drink, pour it on ice  
Mix it on up and get'cha feeling right  
I can get'cha buzzed, I can get'cha smiling  
I can make you feel like you're sitting on an island  
I can make it fruity or I can make it strong  
All you gotta do is tell me what you want  
Put it to your lips, take a little sip  
Tell me what you think, yeah  
I can fix a drink  
Yeah, I can fix a drink
