

# Here And Gone

Chris Janson

We wanna grow up, we wanna stay young  
We wanna crawl, wanna walk, wanna run  
Gotta get started, gotta get done  
Still hear my daddy say, son

Here and now is here and gone  
It don't hang around so just hang on  
This ride called life, it won't last long  
Don't look now, this here and now  
Is here and gone

We ask God why, and then why not  
Wish it was cold then we wish it was hot  
We want everything, except what we got  
Meanwhile time's on the clock

Here and now is here and gone  
It don't hang around, so just hang on  
This ride called life, it won't last long  
Don't look now, this here and now  
Is here and gone

There it goes  
How many more we got  
Heaven only knows

Here and now is here and gone  
It won't hang around, so just hang on  
This ride called life, well it won't last long  
Don't look now, this here and now  
Is here and gone  
Don't look now, this here and now  
Is here and gone
