

Love Don't Sleep

Chris Janson

Truck goes to work, truck comes home
Money gets made, lights stay on
Lazy don't eat
And love don't sleep

Ball gets thrown, hooks get tied
Fish get caught, fish get fried
You'd think I'd be dead on my feet

But love don't sleep
When you're lying next to me at midnight
With those blue eyes, don't wanna miss a thing
So much love to make, so little time
When it comes to you baby, ain't enough hours in the night
When you're in this deep
Love don't sleep

Candle burns out, fire burns on
Feels so right, it oughta be wrong
The want to won't leave us alone
But love don't sleep

When you're lying next to me at midnight
With those blue eyes, don't wanna miss a thing
So much love to make, so little time
When it comes to you baby, ain't enough hours in the night
When you're in this deep, love don't sleep

When something's this good
You don't let it pass by
You wanna stay awake
For the rest of your life

But love don't sleep
When you're lying next to me at midnight
With those blue eyes, don't wanna miss a thing
So much love to make, so little time
When it comes to you baby, ain't enough hours in the night
When you're in this deep, love don't sleep
Love don't sleep
