

Normal People

Chris Janson

We grow up, we get married (Yeah)
We get bills and it gets scary
We got a family plan on the phone
We got a thirty year mortgage on a home
We got problems, we got issues
We got bathrooms low on tissue
We stick to gas and diesel
Just normal people

We live for the weekend
Jump off of the deep end
In a backyard pool, keepin' it cool
Barbecue on the grill
We got church on Sunday
We got work on Monday
We're keepin' it real, keepin' it simple
Normal people

We got tall grass that needs cuttin'
We bot a mower that keeps us cussin'
And that AC needs a little freon
We do our drinkin' at a bar with neon
We clock in, we clock out
We come home and lay on the couch
We grab an ice cream sandwich out the freezer
We're just normal people

We live for the weekend
Jump off of the deep end
In a backyard pool, keepin' it cool
Barbecue on the grill
We got church on Sunday
We got work on Monday
We're keepin' it real, keepin' it simple
Normal people
Yeah, we're normal people

Lean to your right, lean to your left
We save our cash, we cash our checks
We do our thing, we mind our own
Our life is a country song

And yeah we live for the weekend
Jump off of the deep end
In a backyard pool, keepin' it cool
Barbecue on the grill
We got church on Sunday
We got work on Monday
We're keepin' it real, keepin' it simple
Normal people
Yeah, we're normal people
We're all normal people
