

# Out There

Chris Janson

I'm gonna be rich someday sounds out there  
There's a crew cab duramax paid off title sounds out there  
There's a farm with a barn where you can sit back and see the stars

And man that's out there  
There's a someday  
I'm riding out there windows down all the way all the way  
Out there in the middle of nowhere  
Radio so loud cause we don't care  
Blue eyes and blonde hair in that front seat  
I can't help but stare when she's staring back at me  
Sounds like a dream like it's way out of reach  
But I gotta believe  
Man that's out there

Boots and jeans that's me dressed up sounds out there  
And my playlist plays Waylon and Wiz and that's out there  
But there's a girl in my world  
She likes me for me

That's out there  
There's a someday  
I'm riding out there windows down all the way all the way  
Out there in the middle of nowhere  
Radio so loud cause we don't care  
Blue eyes and blonde hair in that front seat  
I can't help but stare when she's staring back at me  
Sounds like a dream, way out of reach  
But I gotta believe  
Man that's out there

Way of life around here  
The way we drink our beer  
The way we're wishing on stars and sending up our prayers  
Man that's out there  
Man that's out there  
Yeah

That's out there  
There's a someday  
I'm riding out there windows down all the way all the way  
Out there

Out there in the middle of nowhere  
Sounds out there  
Man that's out there
