

# Too Far Gone

Chris Janson

I've been pickin' you up  
I've been takin' you out  
I've been droppin' you off  
And goin' home all alone  
We've been playin' it cool  
We've been takin' it slow  
We've been doin' things right  
Let's change it up and mix it up tonight, yeah

Let's find a little spot somewhere  
Get a little moonlight in your hair  
Do a little holdin' on  
Get a little too far gone  
Let's fall like summertime rain  
Hop on this runaway train  
Ride it straight into the dawn  
Let's get a little too far gone  
So far that we can't turn back  
So damn good that we know for a fact  
We're right where we belong  
Let's get a little too far gone

I know where I wanna go  
I can't find it on no map  
You're the one I wanna get there with  
And, girl, I wanna get there fast  
What time can I pick you up?  
I'm already in my truck  
I swear I just heard you smile  
Yeah, I'm thinkin' that you're thinkin' what I'm thinkin'

Let's find a little spot somewhere  
Get a little moonlight in your hair  
Do a little holdin' on  
Get a little too far gone  
Let's fall like summertime rain  
Hop on this runaway train  
Ride it straight into the dawn  
Let's get a little too far gone  
So far that we can't turn back  
So damn good that we know for a fact  
We're right where we belong  
Let's get a little too far gone

I know where I wanna go  
Can't find it on no map  
You're the one I wanna get there with  
And, girl, I wanna get there fast

Let's find a little spot somewhere  
Get a little moonlight in your hair  
Do a little holdin' on  
Get a little too far gone  
Let's fall like summertime rain  
Hop on this runaway train  
Ride it straight into the dawn  
Let's get a little too far gone

So far that we can't turn back  
So damn good that we know for a fact  
We're right where we belong  
Let's get a little too far gone

(Let's find a little spot somewhere)  
A little too far gone  
(Get a little moonlight in your hair)  
A little too far gone  
(Let's fall like summertime rain)  
A little too far gone  
(Hop on this runaway train)
