

Moonshine

Chris Kläfford

Take a look at that moonshine
Baby, do you see it twice?
You've been drinkin' that sugar wine
Now the devil's dancin' in your eyes

Burns like hell, but I really don't mind
Down the well and we're out of our minds
I need more than just a little till you start to hear the fiddle
As your hips start swingin' in time
Flyin' high in the Tennessee sky

Take a look at that moonshine
Baby, do you see it twice?
You've been drinkin' that sugar wine
Now the devil's dancin' in your eyes
He spins you around and drops you down
Just for the night
Look at that moonshine
Baby, do you see it twice?

We ain't drownin', probably off the deep end
Keep on movin', so the night never ends
Now, it ain't no number seven, but it takes you straight to heaven
Or at least right around the bend
A little bit of that forever feelin'

Take a look at that moonshine (Moonshine)
Baby, do you see it twice?
You've been drinkin' that sugar wine (Moonshine)
Now the devil's dancin' in your eyes
He spins you around and drops you down
Just for the night
Look at that moonshine
Baby, do you see it twice?

Look at it once, look at it twice
Look at it once, look at it twice

Take a look at that moonshine (Moonshine)
Baby, do you see it twice?
You've been drinkin' that sugar wine (Moonshine)
Now the devil's dancin' in your eyes
He spins you around and drops you down
Just for the night
Look at that moonshine
Baby, do you see it twice?
You've been drinkin' that sugar wine
Now the devil's dancin' in your eyes
He spins you around and drops you down
Just for the night
Look at that moonshine
Baby, do you see it twice

Look at that moonshine
Baby, do you see it twice?
