Sober

Chris Kläfford

Would it be a problem, if I stay the night?
Probably wouldn't ask but you said you weren't tired
Beautiful weather, the wine makes us confused
But alcohol won't change it all, how I feel about you

So what if I stay a little longer?
What if I sway a little closer to you?
Just cause we're drunk in the moment
Don't mean we won't feel the same when we're sober

Known you for a while, but never seen you like this
We've been pulling pawn chains in this game of chess
Don't feel the shame if you won't to make a move
It's okay, you're not to blame, cause I feel it to

So what if I stay a little longer?
What if I sway a little closer to you?
Just cause we're drunk in the moment
Don't mean we won't feel the same when we're sober
I hope we will feel the same when we're sober

Ohhh, ohhh... sober

I known you for a while, but never seen you like this
And since we're being honest I think we should confess
We're scared to make it real and I don't know why
'Cause I know we'll regret it if we never even try

So what if I stay a little longer?
What if I sway a little closer to you?
Just cause we're drunk in the moment
Don't mean we won't feel the same when we're sober
I hope we will feel the same when we're sober
I know we will feel the same when we're sober
