

Devil Behind The Wheel

Chris Knight

I need an angel in the worst kind of way
Seems like I get meaner every single day
I don't remember making the devil no damn deal
Maybe I got lost one night,
and the devil got behind the wheel

Behind the wheel
The devil got behind the wheel
Straight downhill
And my soul was riding shotgun south of kingdom come
In a long black Coupe Deville hellfire and steel
The devil's behind the wheel

There's a road to heaven for every soul on earth
Lord I believe that for what it's worth
So lord if you're listening I'm east of Mobile
Rolling down highway 10 but the devil's behind the
wheel

Behind the wheel
The devil got behind the wheel
Straight downhill
And my soul was riding shotgun south of kingdom come
With horns on the grill
The devil's behind the wheel

Behind the wheel
The devil got behind the wheel
Straight downhill
And my soul was riding shotgun south of kingdom come
In a long black Coupe Deville hellfire and steel
The devil's behind the wheel

Devil's behind the wheel
Behind the wheel
