

Everybody's Lonely Now

Chris Knight

You're staring out the window
On the dark side of the room
I'm standing in the doorway
Like I ain't sure what to do
You and me been talking
I think I'm starting to see
You been missing someone else
The whole time you've been with me

Don't feel lonely
Baby take a look around
Don't feel lonely baby
Everybody's lonely now

There's a space between us
That just showed up today
I wanna reach out and hold you
But I feel like I'm in the way
Was it a phone call or some sad song
Or have we just gone far enough
I only wish I could have been here first
I wish you luck I wish you love

Don't feel lonely
Baby take a look around
Don't feel lonely baby
Everybody's lonely now

Did you think I'd be the one
To make it all okay
I guess I'm gonna be the one
Who has to walk away

But don't feel lonely
Baby take a look around
Don't feel lonely baby
Everybody's lonely now
