

## Send It on Down

Chris Knight

Daddy used to own the hardware store  
But it and him ain't around no more  
I don't know the whole story but I overheard some  
I know he's who I got my drinking from

The girls around here want a guy that's rich  
Even if I was I wouldn't be no catch  
This ain't where I'll be settling down  
I aim to be gone when fall rolls around

Jesus would you save me  
I'm going crazy  
I need some help getting out of this town  
Are there any answers  
I'd sure like to hear one  
If you got something won't you send it on down  
While I'm still able to be found

I'm sitting in the bleachers at the football field  
Gotta a pretty good buzz from the quart I just killed  
It's a cold Sunday morning and the church bells ring  
I can just about hear all the good folks sing

Jesus would you save me  
I'm going crazy  
I need some help getting out of this town  
Are there any answers  
I'd sure like to hear one  
If you got something won't you send it on down  
While I'm still able to be found
