

# The Damn Truth

Chris Knight

Yea, man it's messed up times  
Half the world's done lost it's mind  
The rest are looking for a sign  
Just to hold on to  
You can't believe what's on the news  
Lie to your face is what they do  
They think we're all just a bunch of fools

That's the damn truth, the way I see it  
That's the damn truth, take it or leave it  
It don't change, you better believe it  
We live in a world of lies  
That's the damn truth

Booze and drugs will rot your brain  
Too much pleasure brings you pain  
But I guess you can die from just about anything  
The past is better off left behind  
Worry's always a waste of time  
Money ain't always the bottom line

That's the damn truth, the way I see it  
That's the damn truth, take it or leave it  
It don't change, you better believe it  
We live in a world of lies  
That's the damn truth

We oughta help the ones in need  
Help a man get back on his feet  
You oughta work if you wanta eat  
If you can  
Can't never did won't never will  
The road to ruin is all down hill  
You can't get back the time you kill

That's the damn truth, the way I see it  
That's the damn truth, take it or leave it  
It don't change, you better believe it  
We live in a world of lies  
That's the damn truth

So many times it's been denied  
But I've seen it in my children's eyes

That's the damn truth, the way I see it  
That's the damn truth, take it or leave it  
It don't change, you better believe it  
We live in a world of lies  
That's the damn truth
