

You Lie When You Call My Name

Chris Knight

What you are shouts so loudly
I foresee your every move
Blood red moon lookin' in the window
Shines the light on the damage you do

Come and go and you leave me nothin'
You used to hurt me but it don't no more
Left our love so far behind you
You don't know what you're lyin' for

And you lie when you say you love me
Don't know why you play that game
Only I and the Lord above me

Know you lie when you call my name

You're so far gone, I can't remember
The one I loved on the day we wed
I hope your past don't come to haunt you
'Cause you'd lie on your dyin' bed

And you lie when you say you love me
Don't know why you play that game
Only I and the Lord above me
Know you lie when you call my name
Yeah, you lie when you call my name
