Chris Lane

Hello baby
Where are you going?
I don't think I got your name
Cause I've been watching
You're way too pretty
I can't let you walk away
Yeah yeah
Yeah yeah

When I first saw you
I thought the same thing
Baby, let's take our time
I wanna get to know you
A little better
I could probably make you mine
Yeah yeah
Yeah yeah

Cause there's no hurry
Baby don't worry
I'll do anything you want
I just wanna kiss you
Maybe I'm wishin'
We could spend some time alone
Alone
Alone

Well I bet you
That I could treat you
Better than any man
I'm not into beggin'
But girl please let me
Take you by the hand
Yeah yeah
Yeah yeah

I don't mean to worry
You can call me crazy
I don't wanna get too close
Cause I just met you
And I can't let you
Leave me here alone

Cause there's no hurry
Baby don't worry
I'll do anything you want
I just wanna kiss you
Maybe I'm wishin'
We could spend some time alone
Alone
Alone
Alone
Alone

Love won't find you
Unless you're willing to take a risk
And I can promise you baby

It won't get no better than this

There's no hurry
Baby don't worry
I'll do anything you want
Just wanna kiss you
Maybe I'm wishin'
We could spend some time alone

There's no hurry
Baby don't worry
I'll do anything you want
Just wanna kiss you
Maybe I'm wishin'
We could spend some time alone
