

Chasin' The Sun Down

Chris Lane

Picture that dirt road Chevy Camaro
Young and wild on the straight and narrow
Another gig, another late night
A world wide open can't see no brake lights

If there's one thing that I've found
That in this life you've gotta make your own sound

Listen to me kid
It's a life short lived
The pedal to the ground
Chasing the sun down
World on fire
Living on the wire
Headed out of town
Chasing that sun down
Chasing (chasing)
Chasing (chasing)
I'm chasing that sun down

We might end up in the middle of nowhere
Burn out like fireworks in the midnight air
Find another bar with this worn out guitar
Chasin' a dream not for the faint of heart

If there's one thing that I've found
That in this life you've gotta make your own sound

Listen to me kid
It's a life short lived
The pedal to the ground
Chasing the sun down
World on fire
Living on the wire
Headed out of town
Chasing that sun down
Chasing (chasing)
Chasing (chasing)
I'm chasing that sun down

Come on!

I don't know if we'll ever catch that setting sun
But it seems we're all too young not to run
Taking a gamble on where this path might bend
Bettin' it will all be worth it in the end

Listen to me kid
It's a life short lived
The pedal to the ground
Chasing the sun down
World on fire
Living on the wire
Headed out of town
Chasing that sun down
Chasing (chasing)
Chasing (chasing)

I'm chasing that sun down
Yeah I'm chasing (chasing)
I'm chasing (chasing)
I'm chasing that sun down
