

Circles

Chris Lane

Standing here, drink it in
Everything you been pouring
Like the way it goes down
And I like the taste on your tongue
I'm gonna let you hold me
Even if it's just for now

I know where it's gonna go
You're so predictable

You always love me in circles
You hurt me on purpose to come around again, come around again
You're so determined to break me
To say that you saved me
You come around again, come around again

I'm so mad about you
I can't live without you
I love you, I need you
Swear I'll never leave you

Lying here, next to you
I've never felt so perfect
Even if it's just for now
With paper hearts and kerosene
One word can spark a fire
You build it up and burn it down

Love has its rituals
We're so predictable

You always love me in circles
You hurt me on purpose to come around again, come around again
You're so determined to break me
To say that you saved me
You come around again, come around again

I'm so mad about you
I can't live without you
I love you, I need you
I swear I'll never leave you
I'm so mad about you
I can't live without you
I love you, I need you
I swear I'll never leave you

Love has its rituals
We're so predictable

You always love me in circles
You hurt me on purpose to come around again, come around again
You're so determined to break me
To say that you saved me
You come around again, come around again

I'm so mad about you
I can't live without you

I love you, I need you
I swear I'll never leave you
I'm so mad about you
I can't live without you
I love you, I need you
I swear I'll never leave you
