

I Go Back

Chris Lane

Windy streets
Dusty dirt roads
Take me back
To the place I wanna go
With you
Yeah with you

City lights nowhere in sight
Crickets singing to us and the moonlight
Yeah and the moonlight
Hold me tight
Don't ever let me go
Kiss my lips and touch me slow

I go back
To that place all the time
Laid you down in the bed of my truck
Where we got tangled up
And held her tight all night long
And I go back
To that night I fell in love
And where she laughed
As she took my hand
And said don't you ever let this end
Man the very next night we were at it again
Yeah that old dirt road
Takes me back to the place I wanna go

We were young
We were wild
Not looking for anything but a good time
Yeah we had a good time
Just like anything that ran out
She ran off to some school and forgot all about
Everything that we had

Now I know
I'll never be the same
Cause every time somebody says your name

I go back
To that place all the time
Laid you down in the bed of my truck
Where we got tangled up
And held her tight all night long
And I go back
To that night I fell in love
Where she laughed
As she took my hand
And said don't you ever let this end
Man the very next night we were at it again
Yeah that old dirt road
Takes me back to the place I wanna go

When the weathers just right and the moon is shining
I'll go driving in that truck
Hang a left down Loradale drive

And I'll sneak around that curve
When the road runs out
There's a worn out path
That leads down to that spot
I'll turn my headlights out
Turn my radio up and I'll blast some Eric Church out

And I go back
To that place all the time
Laid you down in the bed of my truck
Where we got tangled up
And held her tight all night long
And I go back
To that night I fell in love
Where she laughed
As she took my hand
And said don't you ever let this end
Man the very next night we were at it again
Yeah that old dirt road
Yeah that old dirt road
Takes me back to the place I wanna go
