

## She's In Love With A Rodeo Man

Chris LeDoux

She's a barmaid in a west Texas dance hall  
She's there ev'ry night till they close  
And the cowboy's pay for the jukebox  
And she plays 'San Antonio Rose'

Well I know her life ain't been easy  
Lord, the lines in her face say it all  
But she still is a beautiful woman  
In the lights of the Texas dance hall

But she won't sit down at your table  
And I know that you can't hold her hand  
She won't go home with you cowboy  
She's in love with a rodeo man

Well he's hard and he's scarred and he's grayin'  
And he's stoned most all of the time  
And he drinks at a dark corner table  
And he waits there until closin' time

So she won't sit down at your table  
And I know that you can't hold her hand  
She won't go home with you cowboy  
She's in love with a rodeo man

She won't sit down at your table  
And I know that you can't hold her hand  
She won't go home with you cowboy  
She's in love with a rodeo man
