

# Christmas Love

Chris Mann

Baby baby, kiss me by the tree  
Let's have a little private company  
Late to the dinner with the family  
Oh well, that's how it goes

We'll just tell them there was too much snow  
While we kiss away the cold

Everybody loves Christmas love  
It's the kind of love that lights you up  
Brighter than holiday wishes  
Hotter than peppermint kisses  
When you with [?]  
Everybody loves Christmas love  
Everybody loves Christmas love

I got you something that you just might like  
Santa told me that you've been so nice  
You deserve some Christmas every night  
I'll keep you warm as toast

Cause baby, when there's this much snow  
We can kiss away the cold

Everybody loves Christmas love

It's the kind of love that lights you up  
Brighter than holiday wishes  
Hotter than peppermint kisses  
When you with [?]  
Everybody loves Christmas love...

Cause baby, when there's this much snow  
We can kiss away the cold

Everybody loves Christmas love  
It's the kind of love that lights you up  
Brighter than holiday wishes  
And hotter than peppermint kisses  
Baby, tis the season  
For giving and receivin' cause  
Everybody loves Christmas love  
And you're the present I've been dreaming of  
When the snow gets a little bit deeper  
Things get a little bit sweeter  
When you're with your turtle dove  
Everybody loves Christmas love...
