

Half A Heart

Chris Mann

Love is like free falling
Step off the edge and it begins

I feel you hesitating
Can you trust enough to go all in?

I don't want half a heart
I want the whole damn thing
You only let me in so far
Then I'm on the outside looking in
I don't want to fall in love
Just to have it fall apart
Don't let it be over before we even start

I know someone before me
Left you with scars I can't undo
But I want to
So I'll spend forever trying
I promise I'm not just passing through
and I need to hear the same from you.
Cuz

I don't want half a heart
I want the whole damn thing
You only let me in so far
Then I'm on the outside looking in (on the outside looking in)
I don't want to fall in love
Just to have it fall apart
Don't let it be over before we even start

Ooo I need to know if we're both going down the same road and
You say you'll come with me cuz I can't do it all alone
Not alone, not alone oooo say you'll come with me

I don't want half a heart
I want the whole damn thing
You only let me in so far
Then I'm on the outside looking in
I don't want to fall in love
Just to have it fall apart
Don't let it be over baby
Don't let it be over baby

I don't want half a heart
I want the whole damn thing
Noooo
I don't want to fall in love
Just to have it fall apart
Don't let it be over baby before we even start
