

Change Your Life

Chris Martin

Am gonna change your life
Am gonna change your life

You so sexy
Your so beautiful
Oh baby

You never had champagne
You don't know what fun one taste like
You only seen planes
I wanna take you on your first first class flight

It's so unfair
I know love shouldn't come wid a price
But I got change
And I wanna spend it all on you tonight

Now that I introduce you to this
You realize you deserve better
You shouldn't have to settle for less
Now you know your a treasure

So baby this is for you
Yea you know who you are
You got me up in the clouds
You chasing after a star

Girl your body is all that
All that and more

And am gonna need all that
All that and more

Girl you smile is all that
All that and more

So give me all
All that and more

Let's make a toast tonight
Yes to make any modes tonight
We getting real close
I love when you telling me the things that you like
You should already know what is on my mind
I need to get inside

So baby this is for you
This is for you
You got me up in the clouds
You chasing after a star

Now that I introduce you to this
You realize you deserve better
You shouldn't have to settle for less
Now you know your a treasure

So baby this is for you

Yea you know who you are
You got me up in the clouds
You chasing after a star

Girl your body is all that
All that and more

And am gonna need all that
All that and more

Girl you smile is all that
All that and more

So give me all
All that and more

All that and more baby

You all that
Oh baby you all that
I wanna say you all that
To me, to me

You all that
Oh baby you all that
I wanna say you all that
To me, to me
Oh you all that
