Here I come, here I come
Here I come again
And there you go, with your silly games, girl

You know you're hot then cold, you're in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, hey
You know you hot then cold, in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, no

This is not a joke thing, why you laughing
Weh you really a deal with
Hey, stop the walking, while I'm walking
Stop play with me feelings
Better you low me and nuh chat to me
Just see me and nuh see me
Last night we lay down you tun yuh back gi me
Like the loving a nuh fi me

You know you're hot then cold, you're in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, hey
You know you hot then cold, in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, no

You cut a key to me house and a key to me vault
Then broke the key inna me poor little heart
You cut me deep, then you load it with salt
Me shoulda a see it, shoulda know from the start
It's you, you, you and only you
Oh, oh, you, you, you and only you, oh, oh

You know you're hot then cold, you're in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, hey
You know you hot then cold, in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, no

The world knows you're no good for me
Still I can't let you go
Oh, it's so clear, the blind can see
That, I'm weak to your touch, baby

The world knows you're no good for me
But I can't let you go
And Its so clear the blind can see
I'm weak to your touch, yeah

You know you're hot then cold, you're in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, hey
You know you hot then cold, in then out
You want me then you want to be friends
Then you waan go north then south
How you love ramp so
Me nuh waan go through it again, no
