

Tears In Her Eyes

Chris Martin

Yeah
Ta-da, ta-da-da-da
Oh baby
Ooh-ooh-ooh-wah
Ooh-ooh-ooh-ooh
Oh, my baby
L-O-V-E love
Oh-oh, yeah

Tears in her eyes, oh
I can feel when she cries
Though we're far away from each other
In my heart you'll always stay, now and forever
And ever baby

Baby when we make love
(It feels so good girl)
I just can't get enough, baby
(Baby let me love ya) Ooh yeah
And every time you touch me, baby
(I feel so alive)
I think it's still the way you love me, baby
(It blows my mind)

Baby come here now
(Bring your body closer)
Let me touch you right there, oh baby
(Baby let me love you)
I wanna show you the things that I can do
(So close your eyes)
I'll be the genie that makes your dreams come true

Rub me baby
Tears in her eyes, oh na-na-na
(Tears in her eyes)
I can feel when she cries
And though we're far away from each other
(Aw, my baby)
In my heart you'll always stay, now and forever
And ever baby

Just say my name and I'll be there in a hurry
I'm gon' love you up there'll be no reason to worry
(No, na-na-na-na-na)
I'm lovin' up your Middlesex, lovin' up your Surrey
And she coming and coming over and over in a flurry

Ooh, girl I really didn't mean to keep you waiting
I know it's been awhile and your body's aching
(Ooh baby)
When I get ya body there's no hesitating
Bracing your body against the wall and penetrating
(Oh yeah)

'Til I see the tears in her eyes, yeah
And I can feel when she cries, ooh yeah
And though we're far away, ooh baby, from each other

In my heart she would always stay, now and forever
And ever baby

Oh, my baby
Ooh yeah
Aw, my baby, baby, baby
Yeah
Ooh

Oh, my baby, baby
Oh baby
Hoo-hoo-hoo
Ooh
Whoa-oh-oh

Tears in your eyes, yeah
'Cause I can see when you cry, oh
Though we're far apart, oh girl
You're always in my heart, forever baby
Yeah
Oh baby
